Greater ROI
Efficient

ACS MediHealth has provided services and solutions to clients for 28 years. Almost 18 years has been dedicated to helping MEDITECH clients in Home Health, LTAC, ACUTE and Ambulatory sites meet their technology, software and services needs. ACS MediHealth has partnered with BlueHealth Technology who specializes in writing, developing and executing scripts for all MEDITCH platforms. BlueHealth Technology has successfully written scripts in Magic, Client Server and 6.x platforms. Below are some examples of scripts:

* B/AR Procedure Dictionary – Yearly Price Updates, Add Revenue Site, Comparing Test and Live
* PHA Drug Dictionary – Load Formularies, Update Order Strings
* NPR Reports – Download and Move from One Ring to another
* Registration – Register Test patients for Meditech Updates
* Compile Desktops in various modules to save time
* Schedule Meditech reports much easier than using the Meditech scheduler
* Post comments to accounts in B/AR at the patient level
* Automate MM Purchase Orders from Paper to Paperless

Are you working off spreadsheets like the one below and manually entering them into MEDITECH?
